**Go to [www.inota.com](http://www.inota.com) for complete conference details**  
**Online registration is available at [inota.com](http://inota.com)**

**Earn up to 6.5 Contact Hours**

### Keynote Address: The Missing Pieces of Cognition

Katlyn Holman Roach, MSOT, OTR

This presentation will recognize how trauma, sensory processing, self-regulation, primitive reflexes, and mental health impact cognition/executive functions and how if not addressed in practice can limit a patient's ability to reach their full potential.

Learning Objectives:

- Participants will identify the significance of assessing sensory needs, primitive reflexes, and self-regulation skills of clients from the initial evaluation through discharge regardless of the diagnosis or clinical setting.
- Participants will identify appropriate interventions to address underlying functional deficits that may impact overall patient independence.
- Participants will recognize the importance of utilizing trauma informed treatment approaches with all patients.
- Participants will understand the Adverse Childhood Experiences Study (ACES) and the impact of ACES on long term health.

### Poster Session:

[Benefits to Dementia Caregivers Through Occupational Therapy Preventative Education: Case Study](#)

[Primary Care: Utilization of Occupational Therapy Practitioners](#)

[The Effects of Sleep on Work Productivity for OT and PT Practitioners](#)

[Who Are You Without Your Substance? Transforming Occupational Time Use in Recovery](#)

[Ethics Update: A New Code! AOTA 2020 Code of Ethics](#)

[Advocating for Early Pediatric Mobility and Health Development Through Implementation of Modified Ride-On Toy Cars](#)

[Doctoral Capstone Experience at Safe Families for Children](#)

[An Analysis of Factors influencing Compliance with Driving Restrictions Following Shoulder Immobilization in a Sling](#)

### Break-out Session I

[An Interdisciplinary Approach to Cognition for the Medically Complex Patient: How an Occupational and Speech Therapist Collaborate in Acute Care](#)  
(Introductory) \*2 hour course

Amanda Luper, MOT, OTR, CBIS & Jessica Durkovich, MA, CCC-SLP

[Neuropsychiatric Symptoms in Dementia: Management and Implications for Occupational Therapy Practice](#)  
(Introductory) \*2 hour course

Paul Arthur, PhD, OTR/L, OTA

[Motivating Children and Youth: Addressing Barriers to Occupational Engagement through Family-Centered Cognitive Assessment and Intervention](#)  
(Introductory-Intermediate) \*2 hour course

Taylor McGann, OTD, MS, OTR, CEIM, Alison Nichols, OTR, OTD, & Leah Van Antwerp, OTD, MS, OTR, CAS

### Break-out Session II

[Life with Dementia: Live the Memories and Embrace the Moments](#)  
(Introductory-Intermediate) \*1 hour course

Robin Rosbrugh, BS, COTA/L, AMOT

[Executive Functions: You Need Those!](#)  
(Introductory) \*1 hour course

Jessica Mason, OTD, OTR/L, Sean Weir, MS/OTR, CBIS, Karen Dishman, OTD, OTR, ATP, & Jessica K. Wood, OTD, OTR/L, BCP

[Caring for Your Cognition](#)

(Introductory-Advanced) \*1 hour course

Taylor McGann, OTD, MS, OTR, CEIM

[Using the Weekly Calendar Planning Activity to Assess Executive Function of Undergraduate and Graduate Students in a Health Professional Program](#)  
(Intermediate) \*1 hour course

Paula Jarrard, OTD, MOT, OTR/L
